

# ▶ UltraCarb 10

UltraCarb 10 is an activated carbon specially prepared for cleaning air and gases. Typical properties are high adsorption capacity and high hardness.

Type:  
anthracite formed carbon

Parameters:	Guaranteed:	Typical:
Surface BET (m <sup>2</sup> /g):	<b>min. 950</b>	1020
Iodine number (mg/g): 990	<b>min. 900</b>	
CTC (%):	<b>min. 60</b>	64
Bezen adsorption (%):	<b>min. 30</b>	36
Humidity (%):	<b>max. 5</b>	2
Hardness (%):	<b>min. 96</b>	98
Bulk density (g/l): 500 ± 30		
Granulation (ø mm): 2, 3 lub 4		

- ▶ High hardness
- ▶ High adsorption
- ▶ Cleanses air and gasses
- ▶ Granulation 2, 3 or 4 mm
