

cassette filters

UltraKas SP

Filtration Material: very fine plastic mesh framed in metal nets and enclosed in a galvanized steel frame.

Casing: galvanized steel.

Application: UltraKas SP filters are used for preliminary air filtration and as the only filtration stage, e.g. in fan coil units.

The filters are manufactured in all sizes.

* The final operating pressure drop of the filters should be checked in the technical documentation or consulted with the manufacturer of the equipment being operated.
